Functional Programming with Scala

Project Title: __FP Project__

Group Name: __Group 5__

Nathan Bellus

IG5_Polytech

November 19, 2024

About the Project

- **Add Neo4j Connection**
  - I was in charge of the Neo4j part

- **Methodology or Approach:**
  - I create the Neo4j project on my Desktop Application
  - I create a Scala Object Neo4jConnection
  - I load the data directly from the json
  - I write the data on Neo4j DB

Challenges and Learning

- **Challenges Faced and Their Resolutions:**
  - I had some trouble with my Scala and SDK versions
  - I searched the error on internet and I look to the project we made during a previous session so I go back to 2.12.18 Scala version and SDK 11.

- **Learning Gained:**
  - I learned how to connect to a Neo4j Database
  - I improve my learning of a FP language : Scala

- **Future Improvements:**
  - Merge the codes before to try even if there is error
